

GET INTO PRODUCTION FASTER

Tru-Position Tooling from Wilson Tool International helps manufacturers expedite press set-ups and get into production faster — with greater accuracy. Manufactured with extremely tight tolerances, Tru-Position Tooling sets which include a Master Setting Tool allow upper punches to be installed into any station and mate properly with any die.

***Tighter Tolerance + Precise Alignment =
Faster Set-ups & Improved Tool Life!***

- No more need for matched stations
- Master setting tool seats and orients all dies in die table in a single step
- Precision fit between punch and die allowing for non-sequential installation
- Faster press set-up
- Reduces downtime during cleaning
- Diminishes punch tip wear due to superior alignment between punch and die
- Completely interchangeable
- Compatible with segmented die tables

Wilson Tool International guarantees on-time shipping of standard compression tooling.

IF WE'RE EVER LATE
ON OUR SHIP DATE,
